

## **PROJECT-6 : Hostel Management System (Team Project)**

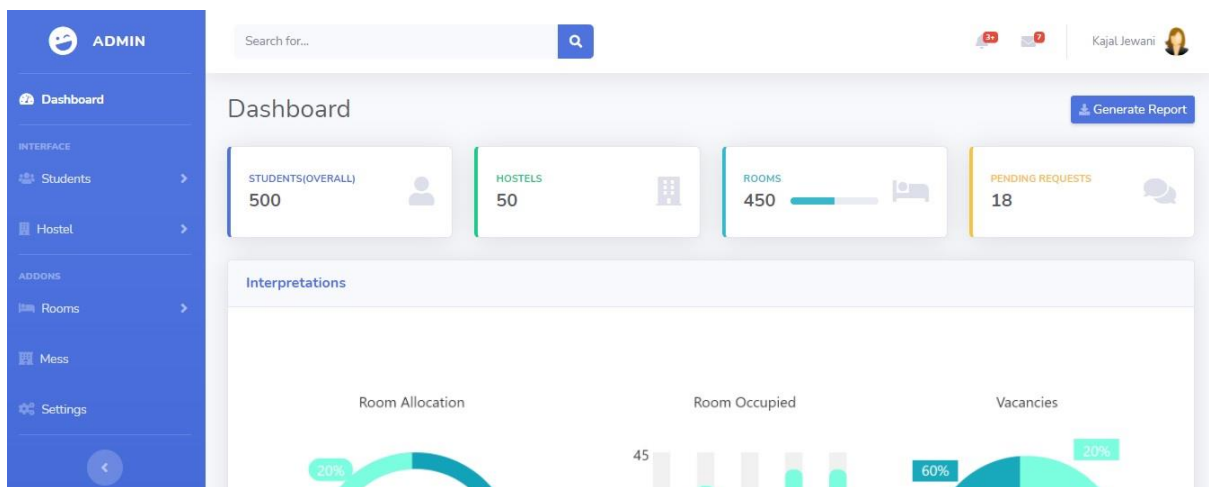

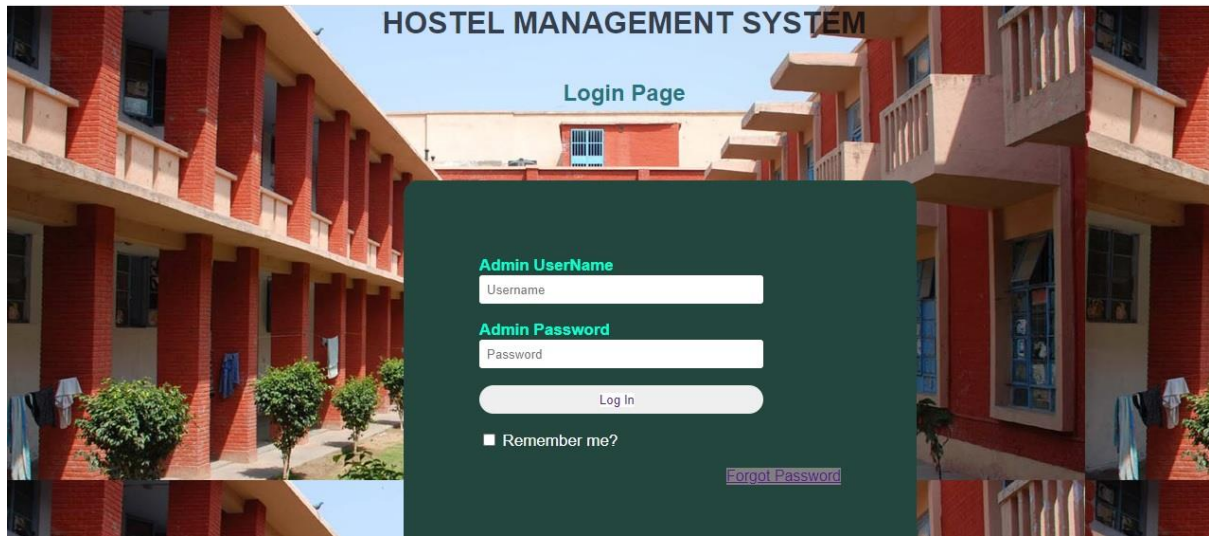

The online hostel management system is a web-based software to provide accommodations to college students more efficiently. This project also keeps details of the hostellers and the applied students. It is headed by warden. He will be the administrator.

This project is intended to minimize human works and make hostel allocation an easier job for cusat students and hostel authorities by providing online application for hostel, automatically select the students from the waiting list and mess calculation, complaint registration, notice board, etc.

**Below is the ER diagram for the same:**

## Interpretations

### Tasks

### VESIT

Vivekanand Education Society's Institute of Technology (VESIT) was established in 1984, with the aim of providing professional education in the field of Engineering. This institute is affiliated to the University of Mumbai and follows the rules and regulations laid down by government, AICTE, and University for admission; 51% reserved for Sindh Linguistic minority and 49% through CAP test. The management quota has been surrendered to DTE to make admission centralized. The institute has a total of 189 faculties, of which 21 are Ph.D. holders and 29 faculty members are pursuing their Ph.D.
